Description

Want a friendly and loving companion by your side? You should go for one of the Goldendoodles puppies for sale in the market. They are intelligent, friendly, playful and smart! Kay is the dog whisper, with 30 years of training and working with dogs. We adopt, train, and help to take care of the lovable Goldendoodles around us. We can help you find the perfect companion, train them as pets and service dogs, and even take care of your special friend when you go for a vacation. Our family of 5 travels between our ranches in San Diego and Idaho making it a lifestyle for both our kids and pets. Blaine brought 30 years of custom home building to Idaho completing a top of the line Dog Retreat including a Dog Spa. We look forward to 2020 when groundbreaking begins on our state of the art CuttinBlueTraining facility for Dogs and Horses.
